Epson TM-L90LF (682): Serial, built-in USB, PS, EDG, Liner-free

DATASHEET / BROCHURE

TM-L90LF (682): Serial, built-in USB, PS, EDG, Liner-free

Best for retailers and food service operators who need versatile liner-free label and receipt printing.

Cost efficient.

As the TM-L90LF prints both liner-free labels and receipts in order to improve the user's operational efficiency and total cost of ownership (TCO). As the printer works with adhesive-backed media, users are able to accurately label food and drink orders - thereby increasing customer satisfaction and user accuracy.

Order processing speed.

With print speeds of up to 170mm/sec, the potential benefits to the user are clear: fast order (and checkout) processing, faster drive-through services and improved customer satisfaction.

Built-in taken sensor.

The next label prints automatically as the printed one is taken.

Flexible installation.

Users can position the printer in the most convenient spot, thanks to a choice of vertical, horizontal or wall-mounted (using optional bracket) installation.

Saves paper.

The TM-L90LF features improved paper reduction functionality that includes back feed capability, line feed adjustment and a smaller sized font. It can be set up to cut through adhesive areas, which saves paper. To further reduce paper consumption, the automatic top margin reduction function prints the top of the next receipt before cutting the current one when printing continues after auto cutting. It supports 1.5-inch, 2-inch or 3-inch media widths.

KEY FEATURES

- **Built-in taken sensor**
  Automatic next label printing
- **Media flexibility**
  40, 58 and 80mm media widths
- **Speed**
  Print speeds of up to 170mm/sec
- **Paper-saving**
