# Epson TM-U220IID (102): Serial, PS, NE sensor, EDG

TM-U220IID (102): Serial, PS, NE sensor, EDG

**Best for kitchens, retail and hospitality that need reliable, drop-in dot matrix receipt printing.**

Easy to use.

The TM-U220II is a robust, high performance impact receipt printer which is exceptionally easy to use. Featuring drop-in paper load, selectable auto-cutter and clamshell covers for easy access and maintenance, the TM-U220II is very reliable and prints on plain paper in three widths.

Increased memory.

An increased buffer allows more orders to be received at the same time, making it ideal for those busy environments where order success is critical. It supports more orders being received from multiple devices, which means that more tickets can be processed in a shorter time, keeping the operation flowing.

High printing speed.

The TM-U220II provides high-efficiency throughput. Retailers can hand receipts to customers faster. Restaurant kitchens can receive orders quickly.

Superior versatility.

The TM-U220II suits a wide range of needs and applications. Each model in the series is powerful, yet compact enough to fit in confined spaces. In addition, the wall-mounting option frees up valuable counter space in kitchens and other tight locations.

Outstanding compatibility.

The TM-U220II printers are designed to be compatible with systems built around predecessor models. These systems can be upgraded simply by dropping in a TM-U220II. Moreover, since the external dimensions are nearly identical, there is no need to change the installation environment.

## DATASHEET / BROCHURE

## KEY FEATURES

- **Easy to use**
  Easy to set up and use, with hassle-free ribbon replacement
- **Increased buffer memory**
  An increased buffer allows more orders to be received at the same time
- **High speed**
  High-efficiency throughput, printing receipts and orders faster
- **Versatile**
  Powerful, yet compact, making it suitable for a wide range of applications
- **Compatible**
  Designed to be compatible with systems built around previous models
